

RN-BSN Online Completion Program Requirements '8

How transfer credits are applied:

1. We take courses that are equivalent and apply them to Drexel courses.
2. We then convert the credit you earned on the semester basis and apply that to our courses here.
3. If any credits are left over, we tally those surplus credits to give you credit you've earned toward your 180 total credits.

In order to graduate with a BSN degree from Drexel, you need to meet every required course listed here either at Drexel or through transfer credits AND you need to meet the 180 credit minimum while maintaining a GPA of 2.0.

TIER ONE Requirements		Courses that transfer to satisfy requirement	Semester Credits	Drexel Course #	Drexel Course Title	Quarter Credits	Surplus credits
